

Snack Policy

It is the policy of the Huntington Hills Child Care Program that we will provide a morning snack and an after-school snack for the children in our care. All snacks will be planned monthly and a calendar of snacks will be posted on the parent information board where parents can view them daily and they will be updated regularly. All snack menus will align with a food guide recognised by Health Canada or Alberta Health. We will ensure that all snack menus support the health and nutrition of the children in our program. Parents will be provided with a copy of the monthly snack schedule through email to ensure they are able to support the nutritional need of their children when not receiving snacks from the program.
